DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 4, 5, 7-9, 11, 12, 14 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ross et al. (US Patent 5,056,296).

With regards to claims 1, 7-9, 14 and 15, Ross et al. discloses an assembling device comprising a first plate 2 having a first air channel and a plurality of openings 4a linked to the first air channel, a second plate 3 having a second air channel 12a and a plurality of second openings linked to the second air channel, the second plate pivoted to the first plate, the second plate having a third air channel 12c and third openings linked to the third air channel, the plate being made out of steel, see column 4, lines 4-9, column 5, lines 4-6, column 6, lines 58-68 and column 7, lines 1-6. Although Ross et al. does not disclose the second air channel and the third air channel being formed individually without linking each other, the examiner submits that a layout of such air channels is within the general knowledge of one of ordinary skill in the art, absent any showing of unexpected results. One of ordinary skill in the art would find it obvious to modify the layout the air channels in order to produce an effective assembling device.

For claims 4, 5, 11 and 12, see column 5, lines 35-41.

Allowable Subject Matter

3. Claims 16-18, 20 and 21 are allowed.
4. Claims 2, 3, 6, 10 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments with respect to claims 1, 4, 5, 7-9, 11, 12, 14 and 15 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

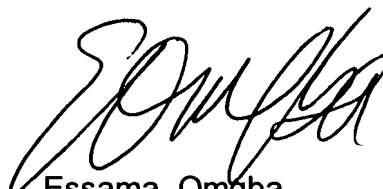

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
